

YARD WASTE REMOVAL

Veolia Environmental Services has offered to provide disposal of yard waste. They will sell yard waste stickers at \$1.90/each with a 50-sticker minimum order. The stickers are to be affixed to paper yard waste bags or bundles of brush material. There will be eight (8) monthly collections in 2009 beginning in April and ending in November. **Resident participation is completely optional.** Materials included are glass clippings, leaves, small twigs and brush. Specifically excluded in this program is the disposal of long branches or tree limbs, stumps, root balls or trunks. Residents are required to properly prepare yard waste materials as follows: All yard waste must be placed at the curb of the road in front of the residence the night before collection; Kraft yard waste bags (available at hardware, building supply, discount and some grocery stores), or disposable corrugated cardboard boxes no longer than 3' long x 3' wide and 3' high, are acceptable containers to be used for the disposal of grass, leaves and small branches. **Plastic bags and cardboard barrels are not acceptable;** Brush must be cut in pieces no longer than four foot in length. All brush must be **bundled and tied with twine** (not wire or nylon), which will support the weight of the material. Bundles must not exceed 50 pounds in weight or one foot in diameter; Improperly packaged materials, or cans with material compacted in them, will be left behind, and collected at the next scheduled pick up day, provided the resident corrects the problem. Please contact Veolia at 262-367-6040 to purchase the stickers.
