Plan Commission Report for December 3, 2019

Mark Remshak
Agenda Item No. 5. B.

Applicant: Mark Remshak
Project: Land Combination
Action: Approval of Certified Survey Map.
Zoning: R-3 (County)
Location: W303 N2652 Maple Avenue

Report:
The Remshak’s own a property that is located on portions of two subdivision lots (platted in 1904). The lot line separating the subdivision lots cuts through the existing garage and the house. The Remshak’s are proposing remove the home and re-build on the property. In order to do so and meet the required offsets, a CSM is required to eliminate the subdivision line and create a single parcel. I have performed a technical review and identified a couple of minor items that I have passed on to the surveyor; reference to CTH E can be removed from the survey map and vicinity map, and the names of Town officials require updating.

Staff Recommendation:

I am in favor of combining lots such as these to “clean up” offset conflicts. The CSM is technically acceptable subject to the surveyor addressing the minor comments noted above and any others determined the Waukesha County Department of Parks and Land Use; therefore, I recommend approval of the CSM dated 11/12/19 subject to the surveyor removing the reference to CTH E, updating the names of Town officials and satisfaction of any County comments.

WHEREAS, the Plan Commission determined that it would be in the public interest to develop a mixed use zoning classification to be used in conjunction with lands designated Mixed Use on the Town’s Land Use Plan, and

WHEREAS, the Plan Commission, in developing a mixed use zoning classification, concluded that the current definition of Mixed Use in Chapter 17.02 does not reflect the desired mixed use uses, and

WHEREAS, upon publication of a Class 2 Notice per Chapter 985 Wisconsin Statutes once each week for two consecutive weeks prior to the hearing, and upon at least 10 days prior written notice to the clerk of any municipality whose boundaries are within 1,000 feet of any lands included in the proposed Zoning Code territory as required by Wisconsin Statutes Section 62.23(7)(d), the Town Board held a public hearing to consider input regarding the definition of light industrial and the creation of a mixed use zoning district on November 20, 2019; and

WHEREAS, on December 3, 2019, the Town Plan Commission has recommended the ordinance be adopted; and

WHEREAS, the Town Board finds that the proposed repeal and recreation of the light industrial definition and the creation of a mixed use zoning district in the Town Zoning Code is not a down zoning ordinance because it does not decrease the development density of land and it does not reduce the permitted uses of land, and therefore the super majority requirement of Section 66.10015, Wisconsin Statutes, does not apply to this ordinance; and

WHEREAS, having determined that all procedural requirements and notice requirements have been satisfied, having given the matter due consideration, and having based its determination on the effect of the granting of such zoning amendments on the health, safety and welfare of the community, and the immediate neighborhood in which said use will be located, and having given due consideration to the municipal problems involved as well as the impact on the surrounding properties as to noise, dust, smoke and odor, and others, hereby determine that the zoning amendments will not violate the spirit or intent of the Zoning Code for the Town of Delafield, will not be contrary to the public health, safety or general welfare of the
Town of Delafield, will not be hazardous, harmful, noxious, offensive and will not for any other reason cause a substantial adverse effect on the property values and general desirability of the neighborhoods within the Town, and will be consistent with the Town of Delafield Comprehensive Plan.

NOW, THEREFORE, the Town Board of the Town of Delafield, Waukesha County, Wisconsin DOES HEREBY ORDAIN as follows:

Hoping we could get this added to agenda for Tuesday night. Concerns from Woodridge Estates HOA on shoulders at North Shore entrance. See below

I have a question and figured you may be able to point me in the right direction. Our HOA has had an ongoing challenge with the front entrance to the subdivision off of North Shore. Basically, trucks/plows/cars can’t seem to stay on the road and continuously destroy the grass on both sides. It’s essentially a byproduct of not having curbs. It really looks terrible, and much time and money has been wasted trying to fix it only to have the damage recur.

I understand our HOA representatives may have talked to someone at the Town about putting up some kind of barrier (e.g. fencing, trees, etc.) close to the road to help correct the issue, and they were told it isn’t possible due to the Town’s right-of-way, which I certainly understand. (I think the “right of way” I was told about refers to the Town’s general right of way on all roads, as opposed to utility easements or the like, but I’m not sure about that.)

My guess is the Town Board probably has the discretion to grant variances/exceptions if circumstances warrant it, and I’ve volunteered to see if I can find a palatable solution. I’m happy to come before the Board, talk to the Town’s attorney, etc. I just didn’t know where to start and figured I’d ask you to make sure (A) the Board has a heads-up and (B) I start the conversation through your preferred channels.
